Summary of Events:

Events take place in a private discord server, comprised of members from the LU server. This server is a family-esque server, where the two moderators of the server call themselves “parents”, which is why you will see them refer to other members as ‘kid’ multiple times in the screenshots attached. The two moderators of this server are **Gladi** and **EI**. The demographic of this server included five members under 18, and five members over 18. **All** members of the server had access to the bedroom channel¹⁸, the server’s NSFW channel.

On July 30th 2020, **Stars** admitted to being in “[love](#)” with a **16 year old**¹ member on the server². Rather than being met with disapproval, she was given sympathy and consolation. A server member went to **Gladi** during this conversation to express their discomfort and ask for the moderators to do something about **Stars**’ grooming and inappropriate behavior⁴. **Gladi** [agreed that the behavior was wrong](#), that [Stars was grooming a minor](#), and that the minor was a “[victim](#)”. Stars herself said multiple times that she knew what she was doing was “[wrong](#)” on this occasion. She said that she has “[a responsibility as an adult](#)” and that “[I’m an adult and I can’t \[love the minor\] but I do.](#)”

On August 13th 2020, **Stars**’ 16 year old victim spoke of his “[love](#)” for **Stars** and was yet again supported⁵. The same server member started a group chat with **EI** and **Gladi** to force the issue yet again, pushing for action to be taken against **Stars** to prevent her from further grooming of minors⁶. They also asked for the bedroom, a NSFW chat where adults and minors were writing, drawing, and sharing pornography together, to be locked or deleted. [The mods agreed that Stars is a pedophile](#). **EI** removed the bedroom channel and posted a [message](#) admonishing the NSFW sharing with minors on the server⁷, then proceeded to take a break from discord. As a result, **Stars** and her victim left the server temporarily⁸, but returned the next day.

The bedroom channel had been in use since July 2020, and had been fully available to all server members¹⁸ until its removal on August 13th 2020. Of note, **Gladi**, **Stars**, and two minors co-wrote explicit NSFW fanfiction in this channel. One document features 34 pages of smut from all four authors²⁰. Another features 30 pages of drawings and writing by **Stars** and her victim. Both of these documents were shared publicly on the server where minors could see and contribute. **Stars** and the victim used self-insert characters in their co-written/drawn smut, acting out explicit scenes together²¹. This violates the UK’s [Protection of Children Act of 1978](#), as images of a sexual nature depicting minors were created and shared. Gladi’s behavior violates the [US’s law on Obscenity](#) as she knowingly distributed NSFW material to minors. **EI’s creation of the bedroom channel and inaction in moderating it makes her guilty of aiding and abetting Obscenity, and both EI and Gladi’s support of Stars is aiding and abetting grooming.**

On August 17th 2020, a server member alerted an LU server moderator to the behavior of **Stars** on the private server and provided screenshot evidence of her grooming⁹. **Stars** was banned from the LU server shortly after.

On August 18th 2020, **Stars** learned that she had been banned and the reporter explained why¹⁰. **Stars** proceeded to go on a rant about how she had been wrongly accused, and **Gladi** came out in support of **Stars** yet again, despite agreeing that Stars is a pedophile 5 days prior⁶. The reporter left the private server at this time.

On August 20th 2020, **Stars** entered the 'dumpster' channel on the private server and began threatening suicide¹², blaming the server members who spoke out against her for her death¹³. One of the reporters was a minor, and **Stars** attacked this person deliberately despite knowing this. **Gladi** agreed with **Stars'** accusations, and had previously offered to help Stars get unbanned¹¹. **Stars** disappears from the server until August 25th 2020¹⁵.

On August 23rd 2020, **EI** returned from her break and the original reporter of **Stars'** behavior was kicked from the private server¹⁴. Attempts were made by the two former members to contact **EI** and **Gladi**, but all messages were ignored.

On August 25th 2020, **Stars** returned to the server and requested for the dumpster channel to be emptied¹⁷. **EI** also kicked the reporter from a group chat that the server had originated from. **EI** then proceeded to converse with **Stars**, **even after Stars mentioned that she still keeps in touch with her victim**¹⁵.

On August 26th 2020, **Gladi** was banned from the LU Discord server for "defending and enabling illegal pedophile behavior in public after privately stating it was reprehensible." **EI** remains on the LU Discord server.

Conclusion:

EI and Gladi have been aware of Stars' inappropriate behavior for at least a month, and both of them failed to do anything to stop Stars' behavior and help the victim out of their situation. They failed to remove Stars from their private server where **four minors are currently still present**, and they failed to protect minors outside of the server by not attempting to warn anyone about Stars. When concerned members of the server brought these issues to light, they did not act on these concerns and instead ostracized these members from the server, to the point where they either had to leave the server or were forcibly removed.

Stars, EI, and Gladi made no effort to contact any of the removed members, or even acknowledge that they used to be part of this server. **Stars continues to be in contact with the minor she groomed, and EI and Gladi continue to speak to her and support her despite knowing this.** The server where these events occurred still exists during the time of writing, and 4 minors are still present there. Stars is still present there. **EI and Gladi are currently allowing a pedophile to be present on a server that has minors.**

EI and Gladi are both adults, and together they created a space for both minors and adults. When creating a space for minors, it is the adult's responsibility to create appropriate boundaries that will keep minors safe. EI and Gladi allowed NSFW content on their server, but did not do anything to prevent misuse of it. They did not moderate the content, they did not create any barriers to stop minors from viewing the content, and they did not even make

the NSFW channel 18+, which is the minimum that they could've done. **El and Gladi failed to be responsible adults, and their irresponsibility and neglect allowed a child to be groomed in their own server.** And instead of listening to the concerns of the members who saw a problem with this, they did everything they could to ostracize these members, all while giving support to a pedophile and being active on the main server, that is populated with many more minors.

Stars, El, and Gladi have shown themselves to be irresponsible adults, that have brought harm to minors through their actions and lack thereof.
